

Kimberly Ducote-Schimmel, Teaching Artist

Spring Promise
photo printed on archival Torchon paper
15" x 11"
\$225

“One of the items we talk about in my class is how to translate your vision to your camera. When we are in an environment, there are lots of items that influence how we perceive what is in front of us. As a photographer, it is up to us to bring all of these items into our 2-dimensional image.”
